MEDIA RELEASE

Australian Water Association announces 2016 NSW Water Awards winners

Embargoed until 10pm, 11 March, 2016

Innovative excellence, creative solutions and exceptional leadership are the consistent themes across the distinguished recipients of the 2016 NSW Branch Water Awards presented last night.

Announced at the annual NSW Heads of Water gala dinner, the Australian Water Association NSW Branch Awards recognised the outstanding work of individuals and organisations in the water industry across innovation, new technology, business and delivery of water projects.

Along with the prestige of being recognised as ‘the best in New South Wales’ winners of a number of the NSW Water Awards will automatically be entered into the equivalent Australian Water Awards category, which are presented on 11 May at Ozwater’16 in Melbourne.

Winner of the 2016 Program Innovation Project – Lake Macquarie Sports Field Improvement Program, Lake Macquarie City Council

Lake Macquarie City Council serves around 200,000 people. The Lake Macquarie Sports Field Improvement Program is an innovative and integrated program of irrigation and soil amendment works on sports fields. The program has delivered significant sustainability and community benefits through water savings, beneficially using compost product from processed organic waste and improved turf health.

Lake Macquarie City Council is based in Lake Macquarie.

Other winners were:

Water Professional of the Year – Dr Fang Chen, Data61

Young Water Professional of the Year - Kathryn Silvester, Sydney Water

Infrastructure Innovation Project – Treating high sugar wastewater – BioGill Operations Pty Ltd and Ferrero Australia

Research Innovation Project – Advanced Condition Assessment and Pipe Failure Prediction Project, Sydney Water

Kamal Fernando Mentoring Award – Rita Henderson, UNSW

ENDS

About the Australian Water Association

AWA represents over 6,000 water sector professionals across all disciplines. Our membership includes water utilities, consulting firms, research institutions, service providers, technology companies and other stakeholders, including government agencies.

AWA is independent and plays an essential role in supporting the Australian water sector in the delivery of effective and sustainable water management practices. Our mission is to foster knowledge, understanding and advancement in sustainable water management – its science, practice and policy –through information dissemination, professional development and the promotion of water capabilities both domestically and internationally.
